About Central Login Help List of services E-mail activation

The Central Login enables users to log into internet services provided by the Jagiellonian University. By logging into one service you gain access to other online services (you need to enter your password only once). If you log out, you are automatically logged out of all available services. The Central Login increases your security - the password is entered only once and you always log into the same secure website.

To use the **Central Login** you need to enter your ID and password.

Your ID is your Jagiellonian University e-mail address:

► **yourname.yoursurname@uj.edu.pl**

Please note that because a few Jagiellonian University users have the same first name and surname, some e-mail addresses may have a different pattern.

Students who need to access USOSweb and do not have a Jagiellonian University e-mail address may use an alternative login ID in the form of `usosweb-login@usosweb.uj.edu.pl`, where "usosweb-login" is usually a unique number provided by the Student Services Office. If you need further information please look under **Help** tab.
